SUPPLEMENT TO
REPORT NO.

25X1X

1. Thirty-five Soviet submarines, approximately thirty torpedo boats, and a flotilla of pursuit ships are located in the inner basin of the military harbor of Odra Port (Ostswine - N54/131). No other vessels are located in the inner basin. The basin is adjacent to a Soviet marine barracks area and is directly connected with Szczecin Channel. The entrance to it from Szczecin Channel is barred by floating pontoons. The banks of the basin are situated in a wooded region and are strictly guarded by Soviet naval forces. Cutters and fishing boats sailing on the Szczecin Channel can observe the base.
2. A shipyard for submarines and pursuit ships is located northeast of Swinoujscie (Swinemuende) opposite the Odra Port submarine, pursuit ship, and torpedo boat base. The Odra Port base and the shipyard are separated by the Szczecin Channel. Laborers and technical specialists in this shipyard are exclusively of German nationality. They arrive by rail each day from the East Zone of Germany.
3. A minefield is located in the shallow inlet between Odra Port and Miedzzydroje (Misdroy - O54/141).
